EDUCATION

FREIE UNIVERSITÄT BERLIN

Bachelor's Degree Communication Studies & Computer Science

Berlin, Germany

Oct 2015 - Aug 2019

- **Relevant Coursework:** Object oriented programming, Functional programming, Relational database systems, Algorithms, Data Structures and Data Abstraction

PROFESSIONAL EXPERIENCE

Mercedes-Benz Research & Development North America

Software development: Speech & Digital Assistants

Sunnyvale, CA

Mar 2019 – Present

- Development and debugging of Digital Assistants integration (Alexa, Google Assistant) into Mercedes ecosystem using JavaScript and JS frameworks
- Communicated effectively with external partners at Google and Amazon to build software requirement specifications
- Led Daily, Sprint Planning and Retrospective in the Scrum Master role
- Tested software in both local and cloud-based environments using AWS, GCP Dialogflow and other tools
- Tested digital assistants in English and German languages
- Developed and integrated a domain into "HeyMercedes" voice assistant using external API

Daimler AG

Application management support

Berlin, Germany

Feb 2018 – Feb 2019

- Supported Daimler internal application and release management
- Tracked and managed outstanding IT-security issues within the team
- Led weekly meetings and calls to gather client needs and determine how those needs could be met in both an innovative and efficient way
- Created and finalized use cases, business requirement documentation (BRD) and Service-Level-Agreements (SLA) for external suppliers

Daimler AG

IT-Management for international projects

Sindelfingen, Germany

Aug 2017 – Feb 2018

- Supported IT management during construction of the new Daimler plant located in Moscow, Russia
- Created a high level workflow of IT-landscape interface documentation, created breakdown structures, worked with the risk register and provided impact analysis
- Was a cross-functional liason between IT and other Daimler departments

Freie Universität Berlin

Student Research Assistant

Berlin, Germany

Aug 2016 – Aug 2017

- Provided assistance with lectures and seminars; in particular, conducted research activities, communicated with students, and managed web content for the internal learning platform

SKILLS

- **Languages:** Fluent in English, German, Russian
- **Programming Languages:** Python, Java, SQL, JavaScript (vue.js, node.js), Haskell, Angular
- **Tools:** Jira, Confluence, Git, pgAdmin, LaTeX, Jenkins, AWS, GCP Dialogflow
- **Methodologies:** Waterfall, Kanban, Scrum (Certified Scrum Master)
